Product Description

DL2901VE Debris Loader

When commercial productivity counts, these units are our most popular contractor and municipal machines. The all-new discharge chute offers rugged wear and increased life productivity. They respectively feature a 29 HP V-Twin or 37 HP Vanguard EFI engine coupled to our largest 20”, 4 or 6-blade, armour-plated impeller with 12 or 18 cutting points and dual shredding Piranha™ technology for up to 12:1 reduction and 4,400 or 5,050 cfm of suction power. The DL3702V’s 37 gross HP Vanguard EFI engine delivers easier starting and fuel savings of up to 25% over carbureted equivalents. (DL3701VE pictured.)

Features -

Square Discharge Elbow

This all-new feature offers increased durability, longer life, and ease of service.

Dual Shredding System with Piranha Blade

For extra shredding. Serrated blades with cutting points for maximum truck loading and debris reduction up to 12:1.

Built-In Rake Holder

Secures the extra clean-up tools needed on the job.

DL Warranty

DL29: limited 3-year engine; DL37: limited 3-year engine
